FALL

It is fall, and the trees are laden with leaves of gold, orange and red—the colors of the sun. The air is fresh and crisp; the birds are flying south and children are romping around in a beautiful pile of leaves. But fall is much more than a change of season. It is a change in attitude and feelings about oneself. It is an end. It is a beginning.

For most people, fall brings conflicting feelings. It is the end of the carefree times of summer and the beginning of the kaleidoscope of new experiences. Fall is a return to the routine and regularity of school. But it also holds an enticing mystery of the unknown.

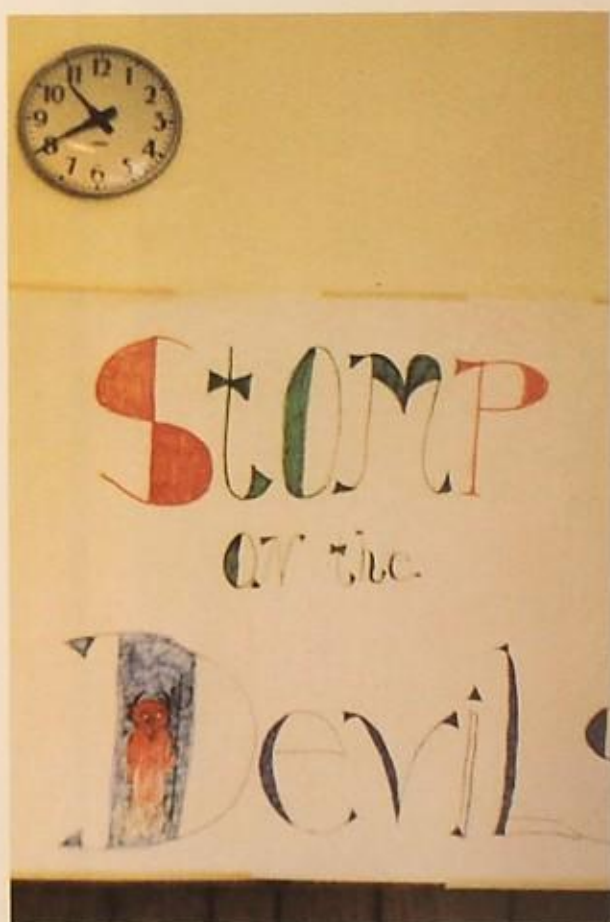

Who knows what is in store in the upcoming year? All one can do is look forward to the future with

optimism and anticipation. There will be bad times, but there will be many good times, too. Face the future and make it a friend.

Fall brings with it the excitement of new ideas, new opportunities, new goals. It is the time to do things one never thought of doing before: join a club, adopt a new hobby, clean one's room!

Halloween is one of two highlights of fall. People dress up and pretend they are someone else. It is a time for enjoyment and silliness. People forget their troubles and stop being themselves for one crazy night. On Halloween, the only rule is to forget all rules, go out, and let loose.

Another aspect of fall that is special is Thanksgiving Day. On this day people sit down to a large dinner as a family and discover that life is not so bad after all. People remember all the things they have to be thankful for: friends, family, good health . . .

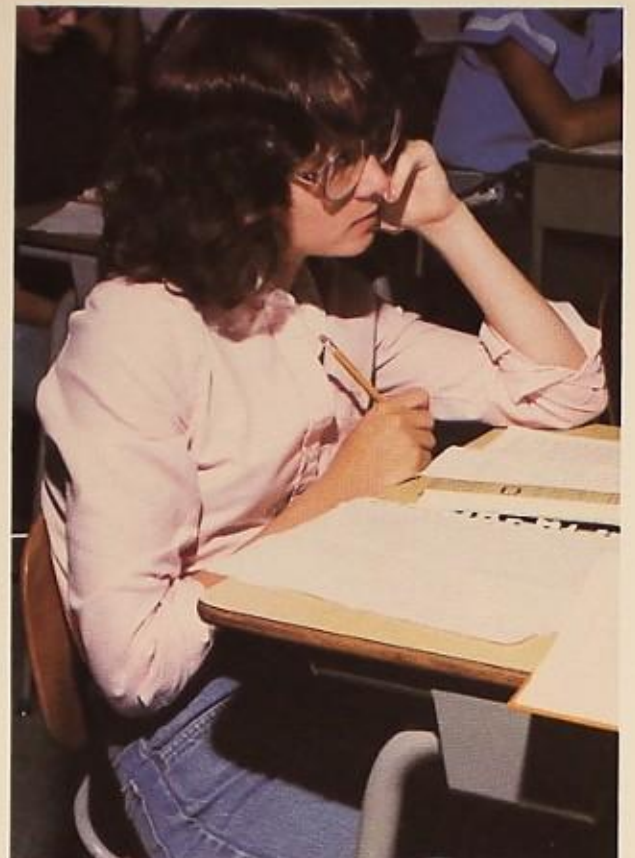

For seniors, it is the last fall to be spent at Guilderland. It is the beginning of the end of years of learning at our high school. After this year, a part of each senior's life will end, and a new part will begin, filled with challenges, hopes and dreams just as we've known in the past.

Fall leaves fall, die, flowers, away;
Lengthen night and shorten day:
Every leaf speaks bliss to me,
Fluttering from the autumn tree

there
One lingers.

To me, Fall means new beginnings

I love fall because of the weather,
Changing colors of the leaves,
Going to football games all bundled
Up.

WINTER

Winter: Brrr. I think that's my first reaction when someone mentions winter to me. I guess when I really think about it, I love winter. The cold is so refreshing. I love getting bundled up: scarves, hats, gloves, big heavy coats, you know-the works! It's fun to watch people walk down the street, not able to see anything but their eyes, and funnier still to know that you look just like them.

There are many things to do in the winter. Ice skating with my family across the street is so much fun: slipping and sliding across the ice, sweeping the snow off, and then being able to see the goldfish swimming beneath the ice. Downhill skiing is great: zipping down the mountain, hoping I don't crash into a tree

farther down! I guess my favorite thing to do in the winter is to ride my horse in the snow. We have lots of fun. She loves to play in the snow and tries to find deep snow drifts to plow through. Sleigh riding is fun, too. Driving my pony up and down the roads, the sleigh bells sounding loudly, echoing between the snow drifts the plow has left behind.

Wintertime has the best holidays. Valentine's Day, Easter and the Fourth of July might be a lot of fun, but nothing compares with the excitement of waiting for Christmas vacation, shopping with friends, wrapping presents. Then comes Christmas: decorating the tree, trying to figure out what is in the packages. Nothing compares

with Christmas caroling, holiday candies and gingerbread houses, little kids so happy. I love New Year's Day-getting together with friends the night before and being rowdy for almost two days.

Winter is crisp and chilly, perfect weather for snowball fights and sledding. The best part of the briskness outside is coming into a cozy house, warming cold fingers and sipping hot chocolate by a crackling fire.

Though I love winter, there are special aspects in every season. I look forward to the passing of winter to see what spring will bring.

SPRING

Spring . . .

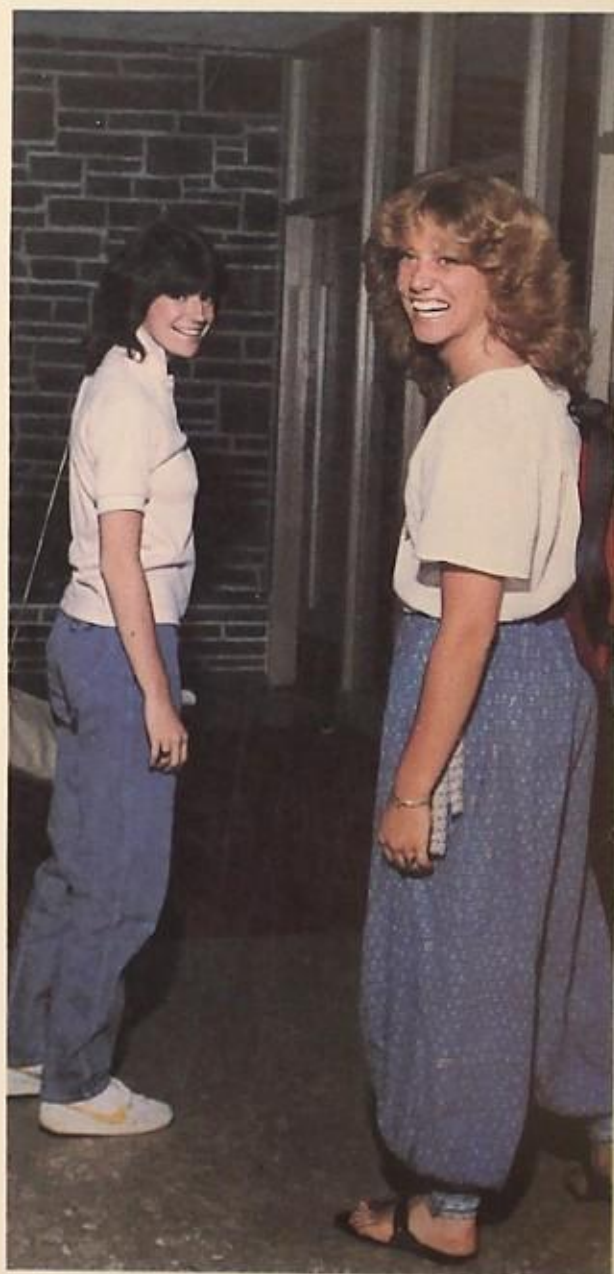

I always know when Spring has arrived, and the barren earth starts blooming. Vibrant shades of purple, blue, pink, yellow, orange and white appear. Buds seem to open up everywhere, catching the sun's rays as they subtly unfold. Streams start to trickle in their beds, running freely over the land. The world seems awake and new. People give you a smile that brightens up your whole day. I anticipate the refreshing change, after all the months of cold, dreary weather.

Spring tends to make people cheerful with its blue-skied, sunny, warm days. I even enjoy the rainy days as I can look forward to the flowers they bring. The rain puddles for children to play in and the brilliant

rainbows. For me spring brings with it joy, cheer and laughter. I feel active; I'm quicker to joke and laugh and live. I look forward to the holiday season, Easter bunnies, baskets of chocolates, jelly beans and colored eggs.

I'm awakened by the sun creeping through the shades and birds chirping outside my window. As I look out my window, I notice that the butterflies have emerged from their cocoons and bees buzz busily from flower to flower. Outside air is crisp and clean with the aroma of flowers and trees . . . I feel as if I could stand outside all day and breathe the fresh beautiful air. Our family starts to do yardwork and to plant flowers. We remove all the storm windows and let the

breeze freshen the house.

Little kids come out of their houses to form kickball games and bicycle races after school. I can hear them laughing as I sit in the backyard doing my homework and it makes me wish I were that carefree again.

For many Seniors, this spring will be the hardest of all seasons. They will be forced to say goodbye to the security they've known for the past twelve years. They'll have to face the fact that they are on their own now and won't be able to hide from the real world. Perhaps the hardest thing to do will be to say goodbye to all of their friends.

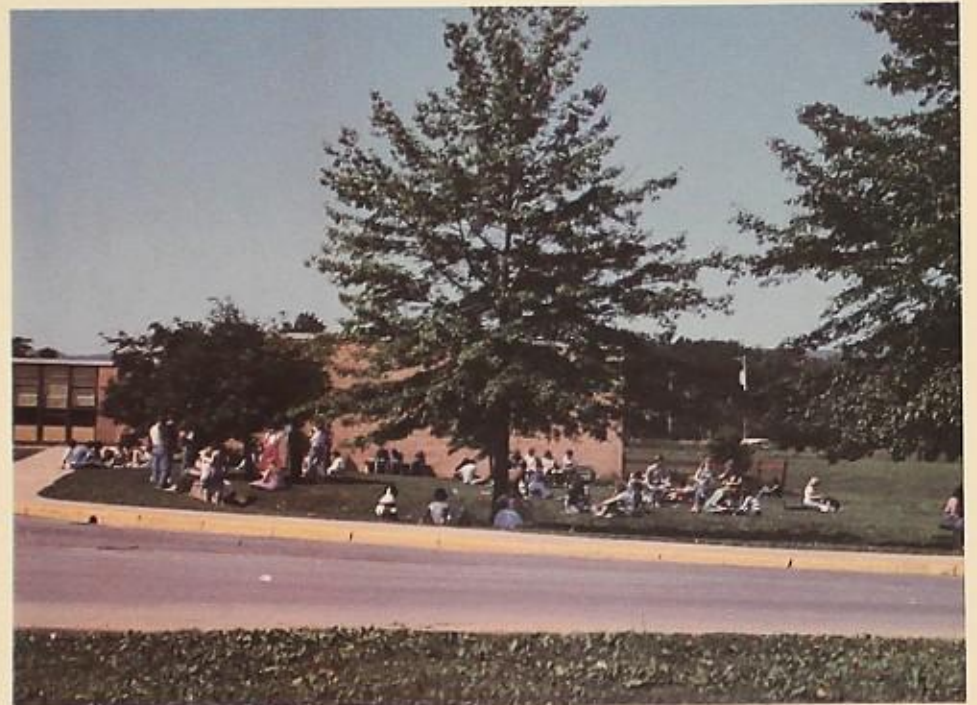

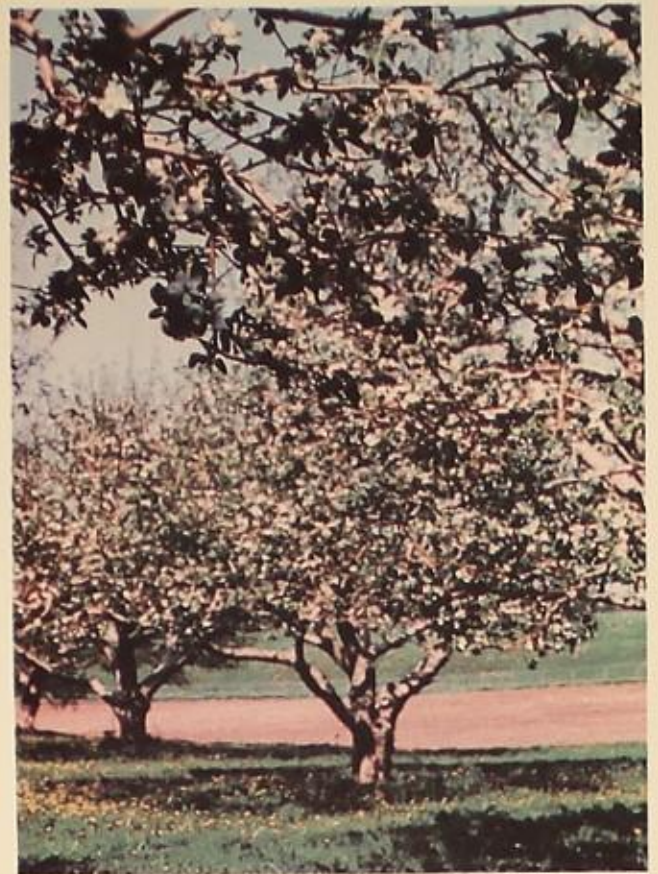

Being a senior in spring isn't all that bad though. Think of Senior Skip day, Graduation and, of course, the parties following. It's a time to celebrate becoming an adult.

-Sheila Costin '83

The stream started at the top of the mountain and slowly worked its way down. It flowed smoothly and steadily, passing tall evergreens, which were dancing playfully in the breeze. It passed a small clearing in the woods, where a mountain goat quietly grazed on small blades of green grass. It divided and traveled around a patch of delicate moss, then came back together. The stream grew larger as it neared the bottom of the mountain. Then it joined the waterfall, and we went crashing down to the rocks below, becoming a part of the rushing, turbulent river at last.

SUMMER

Summertime . . .

During my last summer before college, typical, ordinary life suddenly seems different. I observe, amazed at the different, sights and sounds: A clear blue sky and temperatures escalating into the 90's; cool and refreshing lakes and beaches; children playing, splashing in the water, their screams and laughs rising through the air; people going to the pool to cool themselves off; children, teenagers, and adults everywhere wearing shorts, T-shirts, tank tops, sandals and bathing suits . . .

A refreshing sip of iced tea; trying to finish an ice cream cone before it all drips down the sides of the cone; dark summer skies with brilliant stars; summer parties, loud music,

good times, all your friends; family vacations-trips to Maine, the seashore; walking along the beach barefoot and looking at the sunset in all its grandeur-purple, blue, orange, red, and pink . . .

Camping trips-sleeping in tents, singing around the campfire, being bitten alive by mosquitoes; riding bikes in the hot summer sun; the surge of a waterfall cascading over the rocks; nights at a concert; windy days spent sailing on a lake; a friendly game of frisbee in the S.U.N.Y. fountains; a dog stretched out under the shade of a tree; the swoosh of a tennis racket swinging through the air; screaming on the rides at the fair, smells of cotton candy and fried dough filling your head . . .

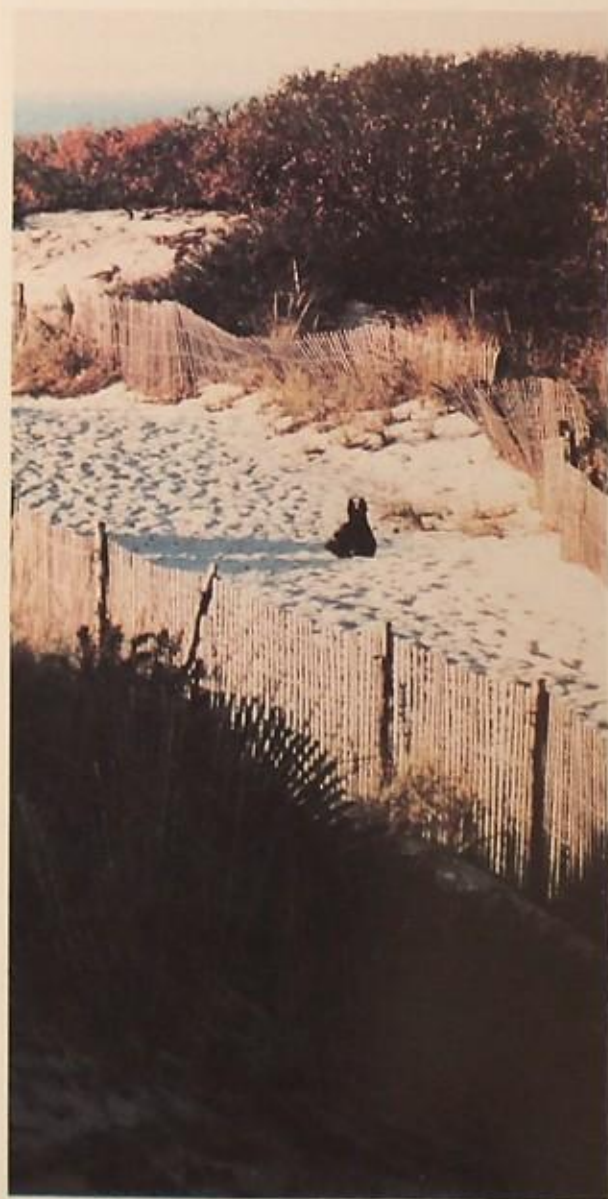

Kids being sent off to camp; waves of heat rising from the

road; anticipating the rainbow after a cooling rainshower; barbecuing; picnicking on a blanket; picking flowers in a field; trying to catch minnows in a stream; brilliant displays of fireworks on the Fourth of July . . . the blare of a loud radio as cars speed by; lounging on the beach amid the smell of tropical suntan lotions; a couple walking hand in hand; the cool shock of air conditioning; lying in bed exhausted listening to the quiet whirr of a fan and crickets chirping somewhere in the night . . .

All of these things I've seen every summer. Now they appear new and wonderful. As I wait for graduation day, an insecure feeling of growing up too fast washes over me.

JODI KNOLL '83

And leaving life, I know the dreams
I'm dreaming now will still be

EXCHANGE STUDENTS

It's so hard for me to imagine that by the time everyone reads this I'll be at the end of my stay in Japan. Right now it is winter here just like home. I go to school six times a week. It takes me over one hour to get to school by bus. School is very difficult. I am taking Japanese, History, English, Math, Biology and Tea Ceremo-

ny classes. I spend most of my time doing schoolwork. When I do go out to sightsee, visit friends or shop, I have to wear my school uniform. It's strange to wear the same outfit seven days a week, although it solves the problem of deciding what to wear. Life in Japan is much different than that of the U.S. Men rule everything, including the home. Children have no say in anything. Children always obey their parents. It was hard for me as an American to blindly follow orders but I soon adapted to the Japanese way. My year has been challenging but aver all a wonderful experience and one I will always remember. Sionara.

Hil My name is Elisabeth Strom. I am an exchange student from Sweden. I live in Stockholm, the capitol of Sweden. Although our way of living is not very different from yours, there are some new things that I have experienced that I will never forget. Celebrating Halloween for example is a holiday I have never celebrated, as is Thanksgiving. Going to concerts at SPAC, tootsie rolls, watermelon bubblegum, and mint chocolate chip ice-cream were all firsts to me. My school at home is less than half the size of this. We do not have the opportunity to make up our own schedules and we have to take 15 subjects. I have had just as much fun learning things in school as I have had meeting so many nice people here. I want to thank everybody for helping this year to be a great and unforgettable experience.

Hello there! I'm Jennifer Liu, a rotary exchange student from the city of Cotabato. Philippines is composed of 7,107 islands situated between the Pacific Ocean and the China Sea.

I'm glad to have met all the people in the USA especially in Guilderland Central High School. Americans are super friendly and very hospitable. I would like to thank everyone who helped me along the way. Studying in another country as an effective and exciting way of adding an important international dimension to my education and life experiences.

The school system, among other things is a bit different here. I learn something new every day, both from my mistakes and my successes. It was wonderful to see everything that I've seen only in pictures and heard about.

Being an exchange student has given me the opportunity to be an ambassador of goodwill for my country and to advance understanding.

I want to thank the McMorris and Mueller families who I lived with. They are both super and wonderful families. Participating in the rotary exchange program has been the greatest experience for me - one that only comes once in a life time.

I NY!!!

maraming salamat at Paalam!!
(Thank you very much and goodbye!) Jenny

Hoil It's mel I can't really figure our what to write because trying to sum up an experience like this in less than 1000 words is impossible. Maybe I should write it in Dutch and then it wouldn't matter! Holland is a beautiful country filled with beautiful people. I'm living in one of the oldest towns, Maastricht, which is said by almost everyone to be the most beautiful city in Holland. I certainly agree! I love it here, and it seems like the time leaves before it even gets here! School is very demanding. The students must take Dutch, English, German, Physics, Biology, Chemistry, Calculus and History. One good thing about school- we have zillions of vacations.

I hope you seniors are all living it up-thank you everyone for your letters and thoughts!!! Tot ziens!

IN MEMORIAM 1965-1982

To Mike:

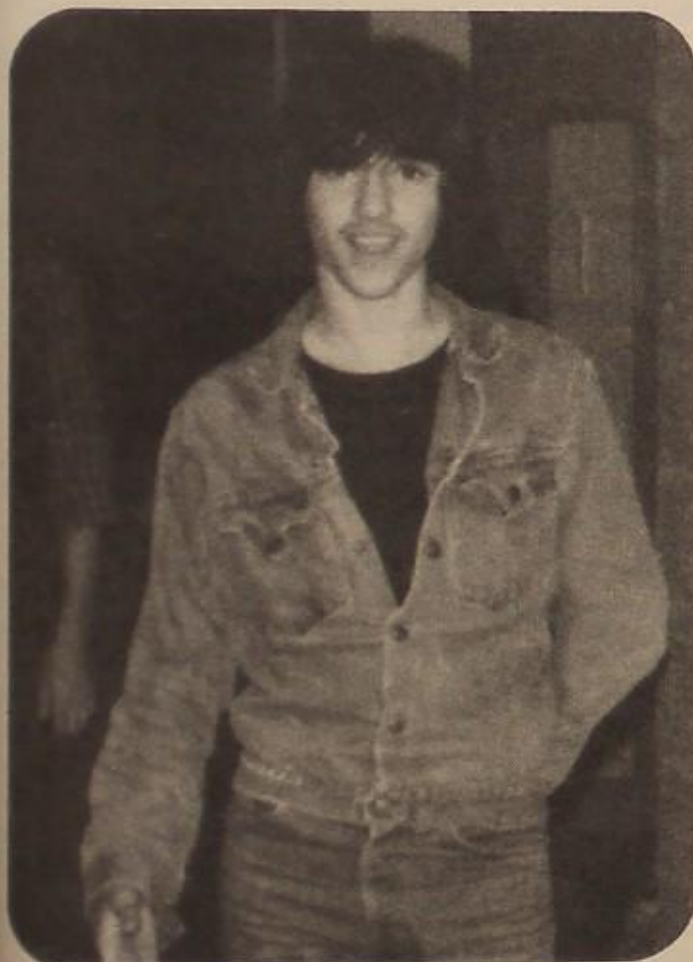

We couldn't believe it when they said you had gone. You seemed so happy yesterday. What went wrong? We wish we had known what you were going through. Was it something that happened recently or had it been building up inside for a long time?

You were always there when others needed you, ready to lend a hand. Why didn't you tell us so we could have been there for you? Were we blind to what you were going through? We will always ask ourselves as long as we live - Why was it you?

It's so hard to express how sorry we are. But now that you have left us, all that remains are the memories of you as you were then. We look back now to help ease our hurt, the hurt caused by your leaving. We wish that we didn't have to look back and that we could have helped you then, when you needed us.

You are still in our hearts and you will be forever.

Love,
Your Friends
